SKILLS

- Python
- AI, ML and Deep Learning
- Tensorflow, Pytorch
- Other Skills:

  React Native, Flutter, NodeJS, MySQL, Php(Laravel, CodeIgnitor) ReactJS, MongoDB

EDUCATION

Pursuing B.Tech
Artificial Intelligence and Data Science
📍 **CDGI, Indore** (Affiliated to RGPV Bhopal)
2021-2025

10+2 (ICSE/ISC) – 90%
PCM + Computer Science
📍 **MSB Edu. Inst., Indore**
2017-2021

CERTIFICATIONS

- Machine Learning A-Z
  (Udemy – SuperDataScience)

- Artificial Intelligence A-Z
  (Udemy – SuperDataScience)

- TensorFlow 2.x ZTM
  (Udemy - ZeroToMastery)

PROFESSIONAL SUMMARY

Dedicated Machine Learning Aspirant with a robust 4-year background in Fullstack Mobile Development. Possessing a proven track record in crafting scalable and reliable applications, I bring a passionate interest in implementing cutting-edge machine learning and deep learning algorithms. Eager to leverage AI and ML expertise to contribute to the growth of the company.

WORK EXPERIENCE

SENIOR FULLSTACK MOBILE DEVELOPER
(Worked on Flutter, Php(Laravel), MySQL, Python - ML)

Wemangia | 07/2023 – Present

- Worked on a restaurant review application, Wemangia, for a startup.
- Made a Recommendation System by using ML algorithms.
- Made the entire app from ground up, focusing on scalability and reliability.
- Optimized the speed with sophisticated techniques in Laravel Backend.

ML Projects

- **Mangia – Recommendation System**
  A recommendation system for restaurant app where the recommendation list is provided to the user using there and other mangia user ratings.
- **Extracting Attributes from Fashion Images - Kaggle**
  Constructed Deep Learning models for precise trouser fit identification from images. Trained on an imbalance dataset with suboptimal tag accuracy.
- **SkimLit**
  Developed an NLP Deep Learning model using RNN to classify the abstract of medical research papers, categorizing sentences into distinct roles such as Background, Objective, Methods, Results, and Conclusions.

OLD WORK EXPERIENCE

SENIOR FULLSTACK MOBILE DEVELOPER
(Worked on React Native, Flutter, NodeJS, Php, MySQL)

Technorizen Software Solutions | 06/2021 – 07/2023

- Designed and developed 20+ hybrid apps.
- Trained & mentored interns & freshers.
- Delivered high-quality and user-friendly applications that meets the customer needs and their business goals
- Developed high-quality, scalable mobile apps with robust backend.

REACT NATIVE DEVELOPER | 05/2019 – 06/2021
FLUTTER DEVELOPER | 06/2020 – 06/2021

Freelance

BIODATA

- DOB: 04th October 2003
- Father: Mr. Khuzema Hamid
- Languages:
  - Fluent: English, Hindi, Urdu
  - Intermediate: Gujarati
  - Learning: Arabic, Japanese

INTERESTS

- AI and Machine Learning
- Community Involvement
- Learning Languages
- Reading
- Exploring Other Fields
- Chess

DEVELOPED APPLICATIONS

- **Mangia**
  A restaurant review app where user can review restaurants, make friends, make groups of restaurant and that can be be followed, locate restaurant using map, check global review on yelp, upload restaurant pictures, and much more.
- **CodeMode**
  A learning platform which is used by institutes for online learning and tests, mainly learning programming (India/US).
- **Bike Doctor**
  An app for mechanics in which the client can ask the mechanic directly via the application and the mechanic and also make payment via application.
- **Manere Sanus**
  An app for the meditation center where the user can add himself to a course, by using points which can be credited via online payment
- **Bin Bin Recycle**
  The app where user can request to collect garbage and should upload a photo and the admin will send a garbage collector to collect it and to recycle the stuff and the user will get the payment depending upon the quantity/quality of the garbage.
- **BadshahSoft**
  An Android mobile application developed for Badshah Software Solution, an accounting software provider, to allow their clients to see their accounts in one touch.
- **Rab Office Managerment**
  A mobile app for Android which is used by Rab Paints to plan, manage, and engineer their office work, track their agents including messaging, work/purchase ordering.
